

WHAT IS AGION ACTIVE™ TECHNOLOGY?

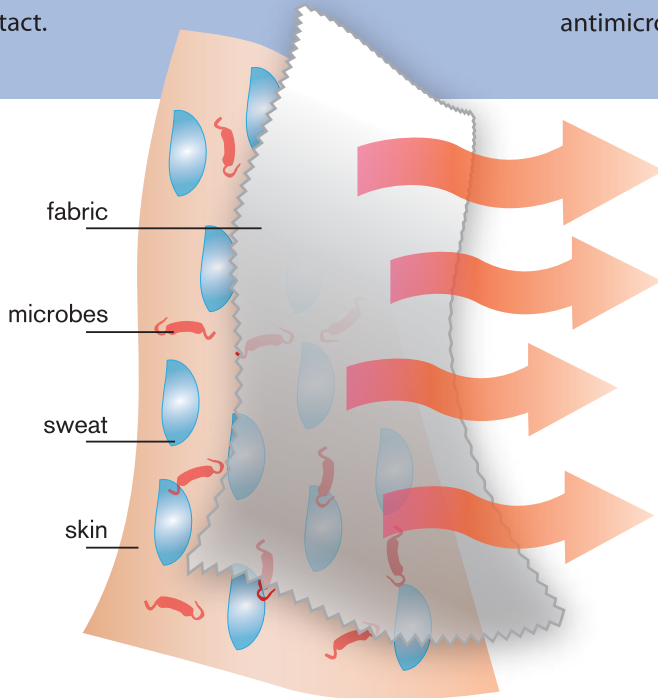

Agion Active™ is an enhanced solution that couples Agion® antimicrobial with Sciessent Lava™ odor control. This combination finish is designed to perform in the most demanding applications and environments. Agion Active™ is completely compatible with the TransDRY™ moisture management technology, so wearers remain fresh and comfortable.

SCIESSENT LAVA™

Sciessent Lava™ attacks and reduces odor-causing bacteria by adsorbing and trapping vapors on contact.

AGION® ANTIMICROBIAL

The Agion® antimicrobial has been successfully used to stop the growth of various microbes. The trio of Silver, Copper and Zinc consistently delivers antimicrobial efficacy for the life of the product.

EVAPORATES ODOR FROM SKIN

ADSORBS AND WICKS ODORS

EVAPORATES BACTERIA-BASED ODORS

REDUCES BODY ODOR

INITIAL BACTERIUM—99.99% REDUCTION
BACTERIUM AFTER 50 HLTD—AT LEAST 90.00% REDUCTION

GAS CHROMATOGRAPHY RESULTS (ISOVALERIC ACID ODOR)

CONTROL	AGION® antimicrobial	AGION ACTIVE™ combination	AGION ACTIVE™ combination after 50 HLTD
