

**Polygiene®**

STAY FRESH

**POLYGIENE® INHIBITS THE GROWTH OF ODOR-CAUSING BACTERIA IN THE FABRIC, CREATING AN ODOR-FREE EFFECT.**

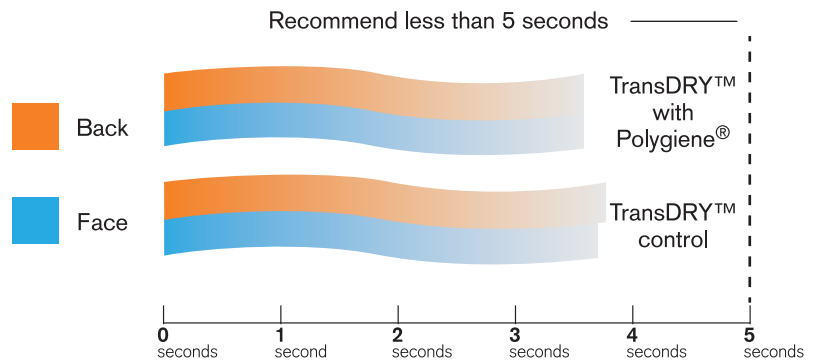

## WHAT IS POLYGIENE® TECHNOLOGY?

Polygiene® uses natural silver salt from recycled silver, a highly effective odor control agent, to safely inhibit the growth of odor-causing bacteria and fungi. Recent evaluation of Polygiene® demonstrates that the odor control treatment is compatible with the TransDRY™ technology, combining moisture management performance and freshness control.

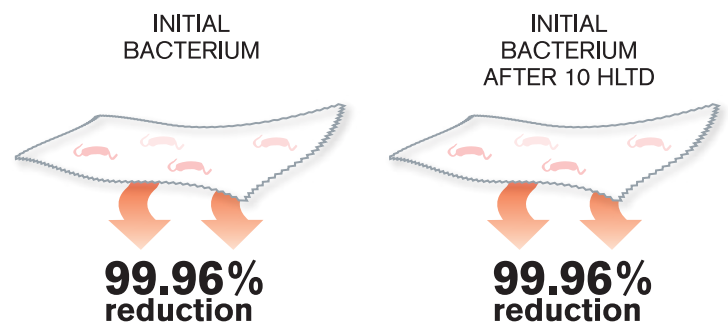

**RESULTS SHOW THAT TransDRY™ PLUS POLYGIENE® ABSORBS JUST AS FAST AS REGULAR TransDRY™**

### ABSORBENCY RESULTS – AATCC 195

### ANTIMICROBIAL RESULTS – AATCC 100

POLYGIENE® IS A BLUESIGN APPROVED, OEKO-TEX LISTED, SILVER BASED ANTIMICROBIAL.

Polygiene® is a registered trademark Polygiene AB.
